please answer

. very good, nice graphics. AMAZING GAME, AMAZING GRAPHICS, AMAZING MECHANICS, CAN'T BELIEVE I SPENDED 100+ HRS ON THIS WITH ME AND MY FRIENDS RECOMEND IT TO EVERYONE LOOKING FOR A GREAT GAME TO PLAY WITH A BAD PC AT A LOW PRICE :)

10V10 EXPERIENCE. Solid Game. Nice way to kill time or let off steam when you're stressed.. Pretty fun game, it's worth the 70cent I paid.

So simple, but so interesting !. Edit: Boss Sauce! You guys added joystick\mouse control! Now just add some scaled down playable aircraft from the hanger and you're perfect by me. But now, this game is 1000% more playable. Sweet.

Not bad. Kind of iffy controls but once you get used to them it's fun. Kind of wish it was mouse controlled, that would make this game 1000x better. Edit: I mean aiming\shooting with mouse by the way. Change speed control to WVS. Improve roll control. Also, maybe make simplified versions of the aircraft in the hanger? That would be epic.. Get rid of that damn inverted control b\vs. Let up be up and down be down. Totally lost interest after just a few mins because of this. At least give us the option to change the controls in settings. Feel like I just threw a dollar in the trash....

REVISED: Within just an hour the devs for this game instructed me how to adjust the controls!! GREAT SUPPORT!! Fun game and a buck WELL SPENT! Awesome support and thank you!! The mini game is better than the main game. couldn't get it installed. Lame lame lame. No joystick support in a flying game. Wow, just wow. Refund, thx. Really really simple but functional. Needs people to join the server to be any kind of fun, sadly, there aren't any. Might be worth keeping on hand in case it (ever) becomes popular enough, then a bit of server play could be quite fun.
